Tired of slow ordering, and over-reliance on staff, reduced profits and an overly complex tech stack?

App4

Enter: **App4**

We're flipping the script, putting the power back into the hands of growing hospitality businesses, increasing your profits, scrapping commission fees and cutting down on staffing requirements.

It's time to make your ordering experience the envy of the competition. **App4** helps takeaways and chains to move away from delivery aggregators such as *Just Eat* and *Uber Eats*, allowing you to:

Grow orders by an average of	Increase net profit by an average of	Reduce waiting time by an average of	Boost staff efficiency by an average of
25-30%	**20-25%**	**50%+**	**30%**

How does it work? We:

Build you a custom online ordering app and website

Help you move your dedicated customers away from aggregators

Use marketing tools to help you draw in new customers

Include additional solutions such as kiosks and order & pay.

We've helped thousands of takeaways and chains to level up their food ordering experience.

Get in touch with our friendly team of experts today; your customers and your wallet will thank you.

Take back control — boost your profits
